

In September 2016 we went to Rwanda for the first time. During our 14 days of stay we saw many people in needs and we decided that we would do something for help.

Last year (2017), On 13rd December we founded the Ruanda-Hilfe Unterlüß Association. In June 2018, the same association was legally recognised as a Non Profit Association.

We particularly want to help for promoting self –help and we want to support two humanitarian projects in Rwanda.

(f. I. Martina Tolle, Bastian Helwig, Ulrike Müller and Isabell Alm with primary school children in Karengu)

(Women/Widows on the building plot Cyangugu)

1. Women's project in Cyangugu

Cyangugu is located near Lake Kivu, in the western province of the country. The project of the house for widows is to facilitate women and widows to have a place to exchange ideas, learn how to cook, sew, and receive training and skills in order to enable them to cultivate the land and doing craft activities for becoming self-sufficient. The same house will be used alternatively as school for the children to learn to read and write.

2. School and food kitchen in Karengu

Many children have no daily meal. Therefore this kitchen food project helps to feed 160 children a hot meal per day.

(Martina Tolle helping service primary school children a hot meal)

We wish to support this project in Karengu with financial resources, This will provide the necessary logistics to continue the food program.

The families and the children are very grateful that you give anything you can as you have no matter how is big or small for help and donations.
